

COE 2018

Annual Experience & TechniFair

April 15-18 | San Diego

3DDerby: Design. Print. Race. COE 2018 Competition Guidelines

COE's Top Gun Competition has been revamped for 2018, with a new challenge for interested competitors to engage in! The format will be similar to a Pinewood Derby, except the cars will not be made of wood - they will be 3D printed!

Guidelines:

- [Email COE HQ](#) your request to compete in the 3DDerby.
- You will be provided with access to the latest 3DEXPERIENCE platform via the cloud on **January 8, 2018** along with basic instructions.
- Complete the model within a given design space (sample image below).
- You will have until **March 2, 2018** to complete your design.
- Competitors can print their car themselves, or print via the 3DEXPERIENCE Partner Marketplace.
- Cars are made available to you at the [COE 2018 Annual Experience and TechniFair](#).
- Meet with fellow competitors during the conference to network while personalizing your 3D printed car.
- Racing and judging will be done throughout the first two days, with prizes given on Tuesday, April 17th at the evening reception.
- Cars will be judged and prizes awarded based on **creativity** and **speed**.

Please [email us](#) with any questions, and we look forward to seeing you at the race!
