

COE Dr. David M. Aber Scholarship Program

Dear COE Member,

The Community of Experts (COE) of Dassault Systèmes promotes the advancement of excellence in all aspects of engineering, advanced technology, and design, while providing a forum for the interchange of knowledge, experiences, and technical information. The COE Scholarship Program aims to provide educational opportunities for members of the academic community, exposure for innovative student projects and professors' educational practices, and immersive experiences within the COE ecosystem. The COE organization is embarking on the next level of investment through [corporate sponsorship](#) to help foster the industry innovators of the future.

Our objectives, outlined below, move to greatly expand COE's yearly academic forum as part of the COE Conference.

Objectives:

- Expose students and professors to the latest trends and opportunities
- Give students the chance to engage directly with industry leaders
- Give companies a chance to interact with top students who are learning and using 3DS tools
- Provide an attractive fertile digital engineering environment for student growth and eventual career opportunities
- Strengthen the COE organization and participating companies by dedicating resources to meet the future needs of all groups
- Create a vibrant COE-led community of students, faculty and professionals that extend beyond scheduled COE events

Please help bolster the COE Scholarship Program by using this email to spread the word and help leverage this opportunity as a reality for the students, faculty, and most importantly, your company.

Sincerely,

COE Headquarters

Targeted Colleges and Universities

Arizona State University	Morgan State University	University of California-Los Angeles
Auburn University	New Mexico State University	University of California-San Diego
Brigham Young University	North Carolina A&T State University	University of Florida
California Institute of Technology	North Carolina State University	University of Idaho
California Polytechnic State University-SLO	Northwestern University	University of Illinois Urbana Champaign
California State Polytechnic University-Pomona	Ohio State University	University of Maryland
California State University-Fullerton	Oklahoma State University	University of Michigan Ann Arbor
California State University-Long Beach	Oregon State University	University of Minnesota-Twin Cities
California State University-Los Angeles	Pennsylvania State University	University of Missouri Columbia
Carleton University (Ottawa)	Portland State University	University of Missouri St. Louis
Carnegie Mellon University	Purdue University	University of Notre Dame
Case Western University	Rensselaer Polytechnic Institute	University of Oklahoma
Central Washington University	Rice	University of Pennsylvania
Clark Atlanta University (AUC)	Ryerson University (Toronto)	University of Puerto Rico - Mayaguez
Clemson University	Saint Louis University	University of South Carolina
Cleveland State	Seattle University	University of South Carolina
Columbia University New York	South Carolina State University	University of Southern California
